NACIONES UNIDAS – EUROPA: CITAS

- Philippe Chabot - CTO:
 - "Nos estamos moviendo de un sitio HTML estático que requieren una gran cantidad de trabajo al sistema de administración de contenidos Joomla!. Hablando técnicamente, éste es un cambio enorme – como pasar de un autito chocador a un auto de carreras de Fórmula Uno."
- Nenad Vasic - El webmaster de UNRIC:
 - "El código abierto había demostrado ser una opción lógica. Nosotros escogimos Joomla! por su flexibilidad, facilidad de uso, y por la comunidad vibrante, inteligente y dispuesta a ayudar."
 - "Además es una plataforma estable y segura. Como un ejemplo de su habilidad de manejar contenidos complejos, debemos mencionar el componente de traducción para Joomla! llamado Joom!Fish que nosotros usamos extensamente para facilitar la traducción manual de muchos elementos desde el inglés a 12 idiomas adicionales, incluyendo menús y artículos de contenido estático. Esperamos que Joomla! sea nuestra plataforma por el futuro próximo."

HIGHLIGHTS

NACIONES UNIDAS — JOOMLA! CONCLUSIONES

- Las soluciones Open Source funcionan, no solamente como herramientas de trabajo, sin audiencia externa
- Tener un plan estrategico y unos objetivos definidos
- Disponer de un equipo en interno
- Limitar las extensiones externas para no complicar el mantenimiento
- Capitalizar y replicar → generación de economías de escala

¿Alguien se atreve a decir que podría haber costado este proyecto con una solución tradicional de Software en modelo cerrado (licencias)?

- Ahora el desarrollo sigue su curso con America Latina y Asia

Welcome
Written by Tristan Kime
Thursday, 15 February 2007
Greetings!

I have been with Sprint Nextel for almost three years. In that time I have learned a lot, both directly and anecdotally, about what our customers think of us via other boards, in our retail stores, reading emails, the list is pretty long...not all the stories are good.

Here are some of the weaknesses I have heard from you:

What do you think?
When did you read your mobile phone manual?

- ☐ I read it cover-to-cover when I bought my phone.
- ☐ Spot-checked certain new features.
- ☐ Only looked at it for trouble

AOL Sessions

Kate Thornton and Louis Walsh - they have both been sacked from the next series of X-Factor.

Samantha Mumba or Paula Abdul 'might' be sat in Louis' chair for the next series, while Cat Deeley or Chris Moyles 'might' taking up the slack in Kate's old dresses.

Amy Winehouse cancelled a recent gig due to illness, although she'd been spotted buying booze. RED WINE CAN BE VERY MEDICINAL YOU KNOW.

Ray Quinn has been asked to sing some songs at Coleen McLoughlin's birthday party. Also, because he is from Liverpool he has been given a plaque on Liverpool's walk of fame. It is probably up there with Blu-Tak.

That thing about Kanye West ordering a curry from Newport was a load of old rubbish. The Welsh chef made it all up.

Bored of Britney yet? Well tough, she is still mental and has been wandering around swimming pools in her pants asking strangers to be her friends. Still, we've all done that.

Jo O'Meara reckons she tried to kill herself - even though she said last week that she definitely didn't.

Apparently **Beyonce** felt unsexy when she had to get a bit skinny to do 'Dreamgirls'.

All Saints have been dropped by their label, it is official. That is what happens when you cross Cheryl Tweedycocle.

Cheryl Tweedycocle has offered Britney the chance to come and stay with her, promising she will sort her out in a month. Britney, love, come and stay at our house - we'll sort you out in a fortnight and you won't have to make polite conversation with Ashley Cole.

Meanwhile, **Kevin Federline** has shaved his head. Apparently 'in support' of Britney, but excuse us if we are wrong, hasn't he had very short hair for ages now?
